

## Nordegg Quarry Decorative Screened Rock

Our decorative screened rock in Nordegg is a blue-gray limestone that comes in various sizes ranges. With all the fine materials removed, it is ideal for high profile landscape or architectural areas, and is hard enough to use for other transportation purposes such as rail ballast.

### Benefits of Fish Creek Excavating's Nordegg Decorative Screened Rock:

- Consistent sizing
- No plastics/organic material
- No fine materials
- 100% fractured faces
- High aesthetic value
- Typical LA Abrasion is <30%

### Nordegg Decorative Screened Rock Typical Chemical Analysis

CaO (Calcium Oxide)	54.55%
MgO (Magnesium Oxide)	1.05%
SiO <sub>2</sub> (Silicon Dioxide)	0.14%
Fe <sub>2</sub> O <sub>3</sub> (Ferric Oxide)	0.06%
Al <sub>2</sub> O <sub>3</sub> (Aluminum Oxide)	0.38%
LOI (Lost On Ignition)	42.70%

Material Size Ranges		Typical Uses
Metric	Imperial	
10 - 20mm	3/8" x 3/4"	Commercial/residential landscape/architectural rock.
20 – 30mm	3/4" x 1-1/4"	Commercial/residential landscape/architectural rock.
30 – 65mm	1-1/4" x 2-1/2"	Commercial/residential landscape/architectural rock, and transportation infrastructure rail ballast.
75 – 150mm	3" x 6"	Commercial/residential landscape/architectural rock, and gabion wall rock.
