

Nordegg Wall Rock & Feature Boulders

Our Nordegg quarry produces our blue-gray wall rock and feature boulder material. These products come in a variety of shapes and sizes, and can be used in many applications. They are ideal for high profile landscape or architectural areas, as well as commercial or residential retaining wall faces.

Benefits of Fish Creek Excavating's Nordegg Wall Rock & Feature Boulders:

- Natural look
- No plastics/organic material
- No fine materials
- Can be small or large depending on application
- Occasional drill hole rock can be used for water features
- High aesthetic value
