

## ***Prairie Creek Quarry Split Masonry Rustic Rock***

Our Prairie Creek quarry produces our Rustic rock, which is then sent to our Calgary Yard location to produce our split masonry rock material. This product comes in a variety of shapes and sizes, is palletized, and can be used in many applications. They are ideal for high profile landscape or architectural masonry walls, as well as commercial or residential retaining wall faces.

### **Benefits of Fish Creek Excavating's Prairie Creek Split Masonry Rustic Rock:**

- Irregular edges for a natural look
- Can be used as dry stack
- No deleterious materials
- Can be small or large depending on application
- Can be used for water features
- High aesthetic value
